

## PUBLICATION OF SYMPOSIUM PAPERS

The conference papers will be published in August 2023 as a special issue of the *OPTICAL REVIEW*, which is the English-language journal of the Optical Society of Japan (OSJ). The authors who will have, by themselves, presented papers at ISOM'22 will be allowed to submit their papers for publication in this special issue. The instructions for preparation of manuscript for the special issue will be informed to the corresponding authors by e-mail after the conference. Submitted papers will be reviewed based on the *OPTICAL REVIEW* standard.
